

WAIVERS - SEMESTER 2 2008

UPDATED AS AT 12 August 2008

Department of Actuarial Studies Results of Special Approval Requests ("pink forms")

Please note the following:

- a) If your request is declined you do not have the right to submit a second request with more information, unless the result listed below specifically requests you to do so.
- b) If the approved/declined column is blank, your application has been received but the decision is pending. If your student number is not listed, your application has not been received. Please submit as instructed by the ACST website.
- c) More Than 14 Credit Points Application Decisions - Please view list at bottom

Application to undertake more than 14 credit

41316967 Approved

41511093 Approved

41474554 Declined

41465547 Declined see Note 6

NOTES:	
1	Waiver not required. Student has not previously studied ACST101
2	Student can apply again in future semester if results improve.
3	Since you have a valid reason, your request has been approved. However, given your first semester 2008 results, you should reconsider whether you should be pursuing an actuarial major.
4	Insufficient data. The committee is unclear as to what units you propose to study this semester, and whether you are currently a part-time or full-time student. Please detail precisely how you plan to complete your degree.
5	The waiver committee recommends you discontinue the actuarial part of your double degree.
6	The waiver committee recommends that you do not continue to pursue an actuarial major.
7	Waiver not required already enrolled
8	It appears you will not be able to complete an actuarial degree in a reasonable time. Please consider enrolling in units which allow you to complete a Bcom in Finance (Code FNN06) in Second Semester 2008.
9	When you first applied for a waiver after First Semester 2006, the waiver committee recommended that you discontinue the actuarial half of your double degree. This advice stands. After your incomplete grades are resolved, please consult an academic advisor to discuss whether you should continue your BAppFin.
10	Since you have a valid reason, your request for ACST211 has been approved. However, you are not able to complete your degree in a reasonable time, and your results suggest you will have difficulty passing many 3rd year ACST units on the first attempt. The waiver committee recommends you abandon the actuarial half of your double degree and enrol in COMP/ISYS units which allow you to complete your BSc this year.

11	When you first applied for a waiver after the release of the Semester 1 2007 results, the waiver committee recommended you not continue to pursue an actuarial degree and suggested how to complete an alternative degree in the standard time. You ignored that advice. The committee still recommends that you don't continue to pursue an actuarial major, but can no longer suggest any way to complete another degree in reasonable time.
12	Still insufficient data. Are you currently employed or will you be a full time student in 2nd semester?
13	When you applied for a waiver after the release of the Semester 1 2007 results, the waiver committee recommended that you try to complete a Bcom in Finance, a choice which would have allowed you to complete your degree by now. You ignored that advice. The committee still recommends that you do not continue pursuing an actuarial major, but can no longer suggest a way to complete any degree in any reasonable time. The best option seems to be to attempt to complete a BCom in Finance this semester.
14	Since you have spent an unreasonably long time on your degree, the waiver committee suggests you cut your losses and elect to graduate now with a BCom with a major in Finance (Study Pattern FNN06).
15	When you first applied for a waiver in first semester 2008, the waiver committee suggested you would take an unduly long time to complete an actuarial major. This advice stands. Please abandon the actuarial part of your double degree and graduate now with the BAppFin you have completed.
